Lawn Irrigation:

If your groundwater use is above 2 m^3/day, or if your use is non domestic (for example, larger scale irrigation or commercial/hobby livestock watering beyond household pets and a garden under 1,000 m^2), a licence or other authorization is generally required.

Domestic use is typically understood as up to 2 m^3/day (2,000 litres per day) under deemed rights.

From the water use purpose definitions: Lawn, fairway and garden – The diversion and use of water for watering a golf course, sports field, park or similar property, as well as watering a commercial lawn, an ornamental garden that is not adjoining and occupied with a dwelling and the portion of an ornamental garden that is adjoining and occupied with a dwelling which garden is larger than 1000m2.
