FAQ: Co-Applicant Submission and Application Status

Question

Do I need a BCeID for co-applicant agreements?

Answer

If your application includes one or more **co-applicants** (added or confirmed in **Step 7 – Applicant Information**), you **must sign in with a BCeID** to access and complete **Step 9 – Signatures**.

This requirement applies regardless of whether you are requesting the co-applicant's approval through the **online email process** or the **hand delivery/offline approval process**.

If you already have a BCeID, use it to sign in and continue your application. If you do not have a BCeID, register for a free BCeID before returning to your saved application to complete **Step 9 – Signatures**.

Important

If your application includes co-applicants, you cannot proceed to **Step 9 – Signatures** until you have signed in with a **BCeID**.

Question

Is my application held until the signed Co-Applicant Approval Form is received?

Answer

Yes. If the signed Co-Applicant Approval Form is mailed, the application is held until the signed form is received. Application processing begins after the signed approval form has been received. If the signed form is not received, FrontCounter BC may contact the applicant.
